COMMITMENT (Chapter 6), You Win in the Locker Room First

Commitment is something you should spend more time demonstrating than talking about. Coaches often want their teams to be committed, but there’s no way you will get buy-in unless you demonstrate your commitment to them first. When your team knows you are committed to helping them be their best they will then be committed to you and give their all for you... You have to decide whether you are going to serve *me* or *we*.

ENJOY FIRST PRIORITY “GOT PEACE” VALUES			
Serving Jesus is a joy and a privilege! It’s not simply something we GOT to do – it’s something we GET to do together! We want to ENJOY what we do and who we do it with. If you don’t enjoy it, what needs to change?
