

"When I began to learn about the love of Christ, I began to feel His love..."

"I grew up in a believing household. We didn't go to church, but we were believers nonetheless. My parents were always busy with work, so church every Sunday didn't really feel like an option for us. My real story began when COVID happened and everything went virtual - including First Priority. Being at a science based school, religion is always so taboo. I felt like I had a chance to connect myself with the Gospel, since it was all online. I didn't have to ask for rides, and I didn't have to worry about what other people said. So that's where I began. A few weeks later they asked me if I would be willing to lead First Priority and I told them "absolutely not." But then ended up saying yes. When I began to learn about the love of Christ and I began to feel His love, I wanted nothing more than to show those around me what His love was. This is what we try to show at First Priority. We try to share the word of Jesus and His love for EVERYONE." - Student Leader, Marine and Oceanographic Academy - Student leader from Marine and Oceanographic Academy
